CS101
Statement of Accomplishment

Name: Catarina Alexandra Pinto Moreira

Login ID: catarina.p.moreira@ist.utl.pt

Congratulations! You have successfully completed the free online offering of CS101, Introduction to Computing Principles, offered April through June 2012 (permanent course url: cs101-class.org). Success in CS101 depends on passing a large range of computer topic questions from hardware to software to networking to security. More importantly, passing the course requires you to code up solutions to our large number of small Javascript coding problems. Well done!

Nick Parlante

Lecturer in Computer Science,

Stanford University
