Curriculum Vitae

Personal Information

Name	Tarrataca, Luís
Nationality	Portuguese
Email	luis.tarrataca@gmail.com
LinkedIn Profile	pt.linkedin.com/in/luistarrataca/

Summary

I received my B.Sc. (2007), M.Sc (2008) and Ph.D (2013) degrees from Instituto Superior Técnico / Technical University of Lisbon in Portugal. My master thesis was performed under the supervision of Professor João Cardoso (FEUP, Portugal) and encompassed embedded systems and computer vision. My doctorate was obtained under the supervision of Professor Andreas Wichert (IST, Portugal) and presented artificial intelligence mappings for quantum computation.

Currently, I am a professor at the Department of Computer Engineering in CEFET-RJ and also a researcher at LNCC's Quantum Computing Group group in Rio de Janeiro, Brazil. I am interested in the possibilities brought upon by quantum computation. My main research focus considers how to use the quantum adiabatic setting employed by quantum annealers in order to develop practical optimization algorithms. I have also contributed to the field of signal processing by coauthoring research on adaptive filtering, tracking, and exact expectation on the least mean squares algorithm. Recently, I have also developed an interest in computational analysis techniques and mathematical modelling of infectious diseases using artificial intelligence.

Teaching Experience

2016 -	Professor at CEFET-RJ, Brazil
2010 - 2011	"Operating Systems" teaching assistant at Instituto Superior Técnico (Portugal)

Graduation Courses Lectured

2016 - 2021	Computer Architecture
2016 - 2021	Advanced Algorithmic Analysis
2017 - 2021	Operating Systems
2019 - 2021	Linear Programming
2020 - 2021	Introduction to Computational Science
2020 - 2021	Object Oriented Programming

Research Experience

2016 -	Researcher at CEFET-RJ
2014 - 2016	Researcher at LNCC's Quantum Computing Group
2010 - 2013	Research Assistant at Intelligent Agents and Synthetic Characters - GAIPS/INESC-ID.
2008 - 2010	Research Assistant at Data Management and Information Retrieval - DMIR/INESC-ID.
2007 - 2008	Research Assistant at Analysis and Compilation Tools for Reconfigurable Architectures - ANCORA/INESC-ID.

Academic Experience

2014	Postdoctoral Fellow at LNCC's Quantum Computing Group
2013	Doctorate (PhD) in Information Systems and Computer Engineering at Instituto Superior Tecnico - Technical University of Lisbon/INESC-ID, Portugal.
2010	Advanced Specialization Diploma in Information Systems and Computer Engineering at Instituto Superior Tecnico - Technical University of Lisbon/INESC-ID, Portugal.
2008	Master (MSc) in Information Systems and Computer Engineering at Instituto Superior Tecnico - Technical University of Lisbon/INESC-ID, Portugal.
2007	Bachelor (BSc) in Information Systems and Computer Engineering at Instituto Superior Tecnico - Technical University of Lisbon, Portugal.

Scientific Research Grants Obtained

2016	ARC 2016 FAPERJ, Brazil

Scientific Initiation Orientation Experience

2018	Gabriela Guedes - Lip recognition system
2019	Gabriela Guedes - Emotion recognition system
2019	Rayssa Rosa - Reinforcement learning techniques

Final Year Projects Orientation Experience

2021	Lukas Torquato and Lucas Santos, Deep Reinforcement Learning Financial Bot
2020	Gabriela Guedes - Emotion recognition system
2020	Rayssa Rosa - Reinforcement learning techniques for the financial marked
2020	Matheus Albuquerque - Geolocation system

| **2020** | Gabrielle Brito - Portuguese text production through recurrent neural networks |

Master Thesis Orientation Experience

| **2019 - 2020** | Gustavo Alexandre Sousa Santos, EvolveDTree, CEFET-RJ, Brazil |
| **2021 - 2022** | Marcelo L. Moreira, COVID-19 AI SEIR, CEFET-RJ, Brazil |

Scientific Publications

Technological Skills/Expertise

Program. Languages	C/C++, JAVA, Python, JavaScript, LISP/Scheme, C#, Perl
Comput. Software	Mathematica, Matlab, R, Octave, Lucene
Parallel Computing	CUDA, OpenCL, MPI
Operating Systems	Linux, MacOS, Android

Honors & Awards

Postdoc Grant	CNPq BJT CSF grant reference 301181/2014-4 (Brazil)
PhD Grant	FCT grant reference DFRH - SFRH/BD/61846/2009 (Portugal)
PhD Award	Best PhD 2013, INESC-ID research laboratory (Portugal)

Projects

UPCASE	The UPCASE project was a joint effort between between ANCORA and PT Inovacao that made use of sensors available in mobile devices as well as sensors externally connected via Bluetooth. This data was employed in order to perform feature extraction and context inference in order to learn and identify contexts automatically and dynamically at runtime.
ABLIP	Co-founder of ABLIP Innovation a startup research company focusing on integrating information retrieval methods alongside knowledge management platforms and mobile devices. The first product released was Blob Squad, a casual Android game for testing reaction speed, logic, and skill.

Language Skills

English	Fluent User in Oral/Reading Comprehension Fluent User in Oral/Production Conversation Fluent User in Writing
Portuguese	Native User in Oral/Reading Comprehension Native User in Oral/Production Conversation Native User in Writing
French	Basic User in Oral/Reading Comprehension Basic User in Oral/Production Conversation Basic User in Writing
